Artistic Hand Drawings, Enthusiastic, Experienced with Hardscapes and Plants
Edmonton area. Work mostly from home except for site visits. Choose your own hours.
Vehicle needed for site visits and print shop runs. Seasonal.

We are expanding our team

Full designs and garden consultations are in demand!

Use your green industry talents and knowledge in a unique and fulfilling way - without the complexity of running a business. Work and get paid.

About our process

You will step in to a supportive and dynamic environment where we share knowledge and solutions for the highest outcome for our mostly residential clients. We love plants, structure and flow and it shows in every drawing! We create a wonderful live experience that invites the personality of the client into the final result. Our clients also have a great understanding and commitment for their design as it is created step by step in front of their eyes.

About the role

We are inviting you to work one on one in a collaborative way to bring clients intuitively through the design process. You will create a calendar of availability for your unique menu of designs and consultations - which we craft as a group and highlights your unique talents. You will use our simple online booking, video and file management system to support your ability to complete most projects within a week - which makes clients very happy!

What you'll do

- You will measure and document the site then create a hand drawn base plan.
- You will create a rough drawing live with the client on zoom.
- You will bring the design to completion, label it and produce a plant list
- You will facilitate the scanning, printing, delivery and billing of your design in collaboration with the support staff

What we're looking for

- You will have a great knowledge of plants that grow in our zone and which ones will thrive in the diverse microclimates. You have a leaning towards naturalized systems.
- You have had the work boots on - you know how bricks and blocks interact with slopes
- You have cut lawns and weeded planting beds so you know what designs work well
- Your artistic flair is balanced with practicality so you can innovate to achieve both in your plans
- You are a good communicator - speaking and listening with sensitivity to the clients and during design reviews. You will participate in our booth at the Edmonton Home and Garden Show.
- You will keep your commitments to clients and staff to keep our process running smoothly and continually building trust. You will have reliable transportation.
- You have legible printing and enjoy hand drawing! You have already created a lot of designs - this is not an entry level position.

What you will learn and how you will grow in the organization

- You will continually develop confidence in your ability to create solutions
- You will identify your niche over time and can expand your offerings
- You will learn from the other designers through the weekly in-person and online design reviews - and we will learn from you!
- Take a chance and give us a call! 780 236 2222
- Send your resume to info@earthworm.ca
